

# ERFAN HOSSEINI SERESHGI

9176075440 | New Orleans, LA | shosseinisereshgi@tulane.edu

## SUMMARY

A software developer with notable research experience in computational geometry and algorithm development, in particular geospatial algorithms, and graph/shape comparison methods.

## PROFESSIONAL EXPERIENCE

### **Data Analyst, LA-CEAL**

2021

*New Orleans, LA*

- Was part of the group that received \$1 million NIH grant to engage communities hardest hit by COVID-19 among 12 total entities that received such a grant.
- Collected and labeled social media data of more than 25,000 users using the state-of-the-art NLP and machine learning practices.
- Established and documented a framework for collecting and labeling the social media activities for future research.

### **Researcher, Geographic Momentary Assessment, Tulane Public Health**

2021

*New Orleans, LA*

- Implemented and maintained a program to manage and classify collected GPS data from 100+ patients based on census data, crime reports and public maps.

### **IT Specialist, Tulane Pre-college Program**

Summer 2020

*New Orleans, LA*

- Ensured high availability and uptime for the program's online platform, with a target of 99.9% uptime, with less than 10 minutes to acknowledge and less than 30 minutes to resolve issues.
- Helped generate revenue by enabling online courses and programs in the beginning of the 2020 pandemic, which estimated to be \$100k.
- Developed and maintained a database of frequently asked questions and troubleshooting tips for program staff and students, making it easier for them to resolve common issues on their own.

### **Head of IT Guru, AIESEC in Iran**

2017 – 2018

*Tehran, Iran*

- Led a team of 3 developers in the creation of a customer support chatbot that offered 24/7 assistance and resolved up to 75% of submitted issues within 24 hours.

## Front-end Developer Intern, Moduland

Summer 2017

Tehran, Iran

- Designed and developed a responsive and modern website under Google's Material Design guidelines which increased the company's exposure to the clients roughly 60%

## EDUCATION

### Tulane University – New Orleans – Ph.D.

2018 – present

- Computer science

### Amirkabir University of Technology – Tehran – Bachelor of Science

2014 – 2018

- Computer science

## RESEARCH AND PUBLICATIONS

### On Length-sensitive Fréchet Similarity

2023

Kevin Buchin, Brittany Terese Fasy, Erfan Hosseini Sereshgi and Carola Wenk

- *Algorithms and Data Structures Symposium (WADS)*

### Merging Roadmaps using Graph Distance Measures

2022

Erfan Hosseini Sereshgi and Carola Wenk

- *Fall Workshop on Computational Geometry (FWCG)*

### Graph Sampling for Map Comparison (received best paper award)

2021

Jordi Aguilar, Kevin Buchin, Maike Buchin, Erfan Hosseini Sereshgi,

Rodrigo I. Silveira and Carola Wenk

- *ACM Sigspatial, Spatial Gems*

### Measuring Length-Preserving Fréchet Correspondence for Graphs in $\mathbb{R}^2$

2021

Kevin Buchin, Brittany Terese Fasy, Erfan Hosseini Sereshgi and Carola Wenk

- *Fall Workshop on Computational Geometry (FWCG)*

### Improved Map Construction using Subtrajectory Clustering

2020

Kevin Buchin, Maike Buchin, Joachim Gudmundsson, Jorren Hendriks,

Erfan Hosseini Sereshgi, Vera Sacristán, Rodrigo I. Silveira, Jorrick Sleijster,

Frank Staals and Carola Wenk

- *ACM Sigspatial, LocalRec*

### Computing Relevant Subtrajectory Bundles Faster

2020

Erfan Hosseini Sereshgi and Carola Wenk

- *Symposium on Computational Geometry, Young Researchers Forum*

### Clustering Gene Expression with Polygonal Chain Alignment

2018

Capstone project

## PRESENTATIONS

### Merging Roadmaps using Graph Distance Measures

2022

*Fall Workshop on Computational Geometry (FWCG)*

### Graph Sampling for Map Comparison

2021

*ACM Sigspatial, Spatial Gems*

### Measuring Length-Preserving Fréchet Correspondence for Graphs in $\mathbb{R}^2$

2021

*Fall Workshop on Computational Geometry (FWCG)*

**The Study of Gentrification on Social Urban Simulation -  
How Income and Interest Can Shape Neighborhoods** 2020  
*Tulane University*

**Improved Map Construction using Subtrajectory Clustering** 2020  
*ACM Sigspatial, Location-based Recommendations,  
Geosocial Networks and Geoadvertising*

**Computing Relevant Subtrajectory Bundles Faster** 2020  
*SoCG, Young Researchers Forum*

**Clustering Gene Expression with Polygonal Chain Alignment** 2018  
*Amirkabir University of Technology*

**A brief Intro to Computational Geometry** 2017  
*Amirkabir University of Technology, Graduate studies seminar*

## TEACHING EXPERIENCE

**Arduino course at Tulane Pre-college Program** Summer 2022  
*Instructor*

**Introduction to Discrete Math Lab** Fall 2020  
*Teaching assistant*

**Introduction to Algorithms Lab** Fall 2019  
*Teaching assistant*

**Python game design at Tulane Pre-college Program** Summer 2019 and 2022  
*Instructor*

**Intro to Computer Science I Lab (Python)** Fall 2018, Spring 2019, Spring 2020  
*Teaching assistant*

**Operating systems Lab/Workshop** Spring 2017  
*Teaching assistant*

**C++ Programming teacher at Helli 4 high school** 2014 – 2015  
*Instructor*

## LEADERSHIP & VOLUNTEER EXPERIENCE

- Tulane Computer Science Graduate Student Council representative (Spring 2023)
- Senator at Tulane Graduate and Professional Student Association (2020-2022)
- IT team leader at AIESEC in University of Tehran (2017-2018)
- Marketing designer at AIESEC in Amirkabir University of Technology (Spring 2017)
- AIESEC global volunteer for raising public awareness about clean energy and recycling in Guangzhou, China. (Summer 2016)
- Member of scientific association of math and computer science at Amirkabir University of Technology (2015-2016)

## CERTIFICATES

- Java programming from Amirkabir University of Technology
- Android development from Amirkabir University of Technology

- Web development and web design from Amirkabir University of Technology
- CITI Group1. Biomedical Researchers
- CITI Group4. IRB, Biomedical Research

## SKILLS & ABILITIES

- Skilled in Python, Java and C++
- Familiar with HTML, CSS and Javascript
- Have worked with R and R studio
- Familiar with Git and Visual Paradigm
- Have some basic knowledge about Android Studio
- Have experience working with Adobe Photoshop and illustrator
- Familiar with QGIS and Gdal
- Familiar with Pytorch

## LANGUAGES

- English (fluent)
- Persian (native)
- Arabic (intermediate)

## HONORS & AWARDS

- Tulane Connolly Alexander Institute for Data Science Summer Graduate Award (2023)
- Best paper award at ACM Sigspatial: Spatial Gems (2021)
- Ranked 6<sup>th</sup> in the Iranian national CS graduate school entrance exam (2018)
- Ranked among top 5 computer science students at Amirkabir University of Technology (class of 2018)
- Semi-finalist in 2014 BAYAN coding contest in Iran
- Ranked among 3% in the Iranian national university/college entrance exam (2014) (More than 60,000 students)
- Was selected by and studied at the national organization for development of exceptional talents (NODET) in Iran
