# ERFAN HOSSEINI SERESHGI

9176075440 | New Orleans, LA | shosseinisereshgi@tulane.edu

#### SUMMARY

A software developer with notable research experience in computational geometry and algorithm development, in particular geospatial algorithms, and graph/shape comparison methods.

#### PROFESSIONAL EXPERIENCE

## Data Analyst, LA-CEAL

2021

New Orleans, LA

- Was part of the group that received \$1 million NIH grant to engage communities hardest hit by COVID-19 among 12 total entities that received such a grant.
- Collected and labeled social media data of more than 25,000 users using the state-of-the-art NLP and machine learning practices.
- Established and documented a framework for collecting and labeling the social media activities for future research.

# Researcher, Geographic Momentary Assessment, Tulane Public Health New Orleans, LA

- Implemented and maintained a program to manage and classify collected GPS data from 100+ patients based on census data, crime reports and public maps.

# IT Specialist, Tulane Pre-college Program

Summer 2020

New Orleans, LA

- Ensured high availability and uptime for the program's online platform, with a target of 99.9% uptime, with less than 10 minutes to acknowledge and less than 30 minutes to resolve issues.
- Helped generate revenue by enabling online courses and programs in the beginning of the 2020 pandemic, which estimated to be \$100k.
- Developed and maintained a database of frequently asked questions and troubleshooting tips for program staff and students, making it easier for them to resolve common issues on their own.

### Head of IT Guru, AIESEC in Iran

2017 - 2018

Tehran, Iran

- Led a team of 3 developers in the creation of a customer support chatbot that offered 24/7 assistance and resolved up to 75% of submitted issues within 24 hours.

# Front-end Developer Intern, Moduland

Summer 2017

Tehran, Iran

 Designed and developed a responsive and modern website under Google's Material Design guidelines which increased the company's exposure to the clients roughly 60%

#### **EDUCATION**

# Tulane University – New Orleans – Ph.D. 2018 - present Computer science Amirkabir University of Technology – Tehran – Bachelor of Science 2014 - 2018Computer science RESEARCH AND PUBLICATIONS On Length-sensitive Fréchet Similarity 2023 Kevin Buchin, Brittany Terese Fasy, Erfan Hosseini Sereshgi and Carola Wenk Algorithms and Data Structures Symposium (WADS) Merging Roadmaps using Graph Distance Measures 2022 Erfan Hosseini Sereshai and Carola Wenk Fall Workshop on Computational Geometry (FWCG) Graph Sampling for Map Comparison (received best paper award) 2021 Jordi Aguilar, Kevin Buchin, Maike Buchin, Erfan Hosseini Sereshgi, Rodrigo I. # LEADERSHIP & VOLUNTEER EXPERIENCE

- Tulane Computer Science Graduate Student Council representative (Spring 2023)
- Senator at Tulane Graduate and Professional Student Association (2020-2022)
- IT team leader at AIESEC in University of Tehran (2017-2018)
- Marketing designer at AIESEC in Amirkabir University of Technology (Spring 2017)
- AIESEC global volunteer for raising public awareness about clean energy and recycling in Guangzhou, China. (Summer 2016)
- Member of scientific association of math and computer science at Amirkabir University of Technology (2015-2016)

#### **CERTIFICATES**

Instructor

- Java programming from Amirkabir University of Technology
- Android development from Amirkabir University of Technology

- Web development and web design from Amirkabir University of Technology
- CITI Group 1. Biomedical Researchers
- CITI Group4. IRB, Biomedical Research

# SKILLS & ABILITIES

- Skilled in Python, Java and C++
- Familiar with HTML, CSS and Javascript
- Have worked with R and R studio
- Familiar with Git and Visual Paradigm
- Have some basic knowledge about Android Studio
- Have experience working with Adobe Photoshop and illustrator
- Familiar with QGIS and Gdal
- Familiar with Pytorch

#### LANGUAGES

- English (fluent)
- Persian (native)
- Arabic (intermediate)

#### HONORS & AWARDS

- Tulane Connolly Alexander Institute for Data Science Summer Graduate Award (2023)
- Best paper award at ACM Sigspatial: Spatial Gems (2021)
- Ranked 6<sup>th</sup> in the Iranian national CS graduate school entrance exam (2018)
- Ranked among top 5 computer science students at Amirkabir University of Technology (class of 2018)
- Semi-finalist in 2014 BAYAN coding contest in Iran
- Ranked among 3% in the Iranian national university/college entrance exam (2014) (More than 60,000 students)
- Was selected by and studied at the national organization for development of exceptional talents (NODET) in Iran
